

Join the [Paranormal Anomaly Search Team](#) on a paranormal investigation in Streator Illinois, as we revisit the location of our last tour. Local residents have stories of a body buried in the basement of the house and rumors of it being very frightening. Children avoid the house, especially at Halloween. We were able to interact with a spirit we believe to be the girl and we caught and EVP of a man during our last tour here.

The pictures you see here are from the actual residence. The previous owner reports the presence of a girl in the upper floors of the residence. He was reluctant to tell others of his encounters due to a fear of what they would think. Come see if we can get her to interact again.

Local rumors also point to a man being buried in the basement courtesy of Al Capone. Capone was known to visit the Streator area and often stayed at the now destroyed Plumb Hotel. The hotel was blocks from the residence we will

investigate. Gangsters were very active in this area especially during prohibition. Some believe this area may have been a dumping ground for those who have crossed the Mob. The town of Streator is also built over many old mines covering much of the city.

We will take you on a tour of some of the paranormal locations including the Hill house where Elizabeth Hill was murdered and buried in her basement in August 1927. A red blood stain is said to keep appearing in the basement no matter how they try to remove it. We will show you the location where the Plumb Hotel stood. We will also take you to the location where we caught this ghost shown below.
